

Locate OSINT Updates – March 2021

It's Neil here with March's OSINT Updates, to let you know of any changes in the world of OSINT. In this update we are going to let you know about;

- **Epieos Online Resources Are Back**
- **YouTube Comments Searcher**
- **Beneficial Owners Of Companies**
- **Instagram Account ID Number**

Epieos Online Resources Are Back

You may have seen in the news about a fire at a server centre in France (<https://www.itpro.co.uk/server-storage/data-centres/358855/investigation-underway-into-cause-of-ovh-data-centre-fire>) which caused many websites to suddenly disappear from the Epieos was one of those affected but they are back online now, so the free online resources are working again.

- Gmail Account Details - <https://tools.epieos.com/google-account.php>
- Phone Account Finder - <https://tools.epieos.com/phone.php>
- Email Usage Finder - <https://tools.epieos.com/holehe.php>
- Email To LinkedIn - <https://tools.epieos.com/linkedin.php>

YouTube Comments Searcher

We have added a new section to the Video Sites page of our website (<https://www.uk-osint.net/videosites.html>), for YouTube Comments Searcher, with a link to SmallTubeTools at <https://smalltubetools.com/>, which makes it easy to search the comments made to an uploaded YouTube video.

Just paste in the URL of a YouTube Video, then you can search any words to locate any linked comments.

Beneficial Owners Of Companies

We have added a new section to the Company Related Sites page of our website (<https://www.uk-osint.net/companysites.html>), on accessing the EU Registers Of Beneficial Owners Of Companies / Legal Entities, which is from an article at www.blockint.nl by Ludo Block. Most of the links to these countries sites are free to search but are not all in English.

These were brought in under anti-money laundering rules approved by the European Parliament, to show the ultimate owners of companies and trusts on public registers in EU countries, to increase the transparency of ownership of legal entities.

Instagram Account ID Number

We have added a new section to the Instagram page of our website (<https://www.uk-osint.net/instagram.html>), to locate a users' Instagram Account ID Number, which can be accessed by adding `/?__a=1` (without the quotes) in the URL / address bar after the account holders name. This will then open a JSON page, which clearly displays in the first line, `logging_page_id = "profilePage_???????"` where the `???????` is the users' Instagram Account ID Number.

Many thanks & stay safe

Neil
